There has never been a successful vaccine for a RNA type virus. Look it up, not a single one. This whole thing is being egineered to lock down again in the fall. People will not stand for it and the weak will just have to die if it in fact is real to begin with.

>Meanwhile, Dr. Anthony Fauci, the director of the National Institute of Allergy and Infectious Diseases, recently stated that it's "doable" to have a vaccine ready in January "if things fall in the right place."
--how long before Dr. Fausti goes away? Will they wait until 'a vaccine' is widely distributed to insiders, first...then send him sailing towards the Sun?

>Q has not Lost what I have Lost.
and you haven't lost what is being raped and taken away from the people this very moment everyday until some well meaning 'patriots' who are nothing but sell outs and whores decide it's time to stop killing people for doing what they should be helping with.
Do you have any idea what the fuck is going on right now because Q is a fucking moron and your masonic bullshit isn''t cutting it either.
For many, this plan z is a step too late, bridge too far. We've already lost more then what many lose without simply going out shooting and killing other subhuman scum or the like.
Always, it's the ones with least vile shit that gets taken away, violated, destroyed.
The fuck you 'patriots' do about this. You cajole with the enemy, spit on our faces, and laugh as the enemy violates your women and children, throwing contempt in people's way when they react exactly as anyone if they were driven to the corner.
You fuckers need to come up with many many more thing to take the fight to the enemy, to their bedrooms, to their homes, to their families.
Because people are dying, and you aren't doing fuck all shit to fight our enemies.
You got something to tell our families in their graves or those who left us behind, say so.
Because those sitting in the WH are not listening to us anymore and you are certainly no ally, gloating at people for knowing less then you do.
You are vastly underestimating how much hatred is growing not just for other, but for your type at this moment.
Give a fucking straight answer.

>Q has the belief that we can still reach a settlement with Traitors
Personally, I believe this to be a short-sighted, fool-hardy consideration.
Every one of them MUST die, or, while in prison they'll just regroup, train others to pick up where they left off, and be readily available to continue guiding and assisting their uncaptured partners in crime. This is no John Gotti-level criminality, where prison cells are like country clubs.
>NO MERCY this time.
Our Country must set a precedent that TREASON cannot be tolerated.
I am especially irked if it is true that ONLY Brennan will be charged with Treason.
>THAT was their entire game. Like a well-oiled set of gears driving a massive machine, had any gear -large or small- broken, the machine would not have functioned with precision until it was replaced.
EVERY ONE OF THEM is guilty.
If we do this...the entire world changes, simply because we had the balls to do it.
>okay, I will not take a deep breath and center myself again.

That's the best last fucking 30 years have given you, is that it. You know what enemies do, but this fucking low energy shit like a typical cuked traitor is what you can offer.
There's no fucking way when shills say 'nothing's happening' it won't work, because as far as what is being applied to people you fuckers are more cuked then the fucking german police.
In fact I would rate them higher then you in terms of consciousness and understanding who they are.
No body gives a shit what you know. They do watch what you do. So far, not a damned thing has been done to reverse any trend. Not even a bulwark and you know morale has fucking collapsed in certain areas that should never have been possible.
Should you and other incompetent useless impotent fucks dictating terms continue on this same bullshit pattern there won't be anyone left at the end of these series of defeats.
But then again all your kind is capable of is bullshit, manipulation, and using then throwing away your own while you cover your ass and bolt with your family if they are lucky enough. Seen too many of you hypocrites and liars to see you are no different. You all claim to be fighting 'traitors' when you and the fucking child grooming, raping subhuman shits and dems are just two sides of the same coin in the end. Cuked to the same thing too and you would be responding very differently if I posited this in a slightly different fashion.
Fucking "knowing" bullshit all just delusions and smokes and mirrors.

If you and other fucking incompetent cowardly fools who have failed and continue to willingly fail to keep and protect your women and children got a solution, something other then continued defeats of last 70 years, say it straight and to the fucking point.
Because we are finished if we keep trusting the likes of you, one way or another and we don't recall asking a fucking nobody to dictate from 'enlightenment' if we should die or live.

It's not that they'll train apprentices since their apprentices are mostly... In the family or random gangsters like Podesta.
They'll just make phone calls and arrange things from behind bars.

The lens you have to view history from is really that every human social organization ever is a gang. These people are mafiosos they have a money and they have mercenaries.
I doubt the fags on the... Other side theatrically?? Would be willing to put all these people in solitary and plus they have little buttbuddies on the outside who can cause trouble.

Suffice to say they won't even jail any of them and if they do not even as many as inb4 alleges.

I don't remember questioning this motherfucker's legitimacy.
But all the bullshit last few years, and this is what we fucking get.
They couldn't resolve middle east effectively, they are doing nothing about europe, and the fucking subhumans are running amok infiltrating and subverting everything back home, and preying after women and children just the same if not more.
Now we get these 'patriotic' fuckers screaming racist and bigot to ones who can't see a way out and one victimization on one hand from subhuman scum, then sneering cuked bullet and cowardice from the other end.
What the fuck changed in the last 3 years if not the fact that enemies have completely subverted this whole thing and are now cornering the people, for which these incompetent fucks were too cowardly to keep up with.
OP's been fucking low energy cuked for a long time and people knew but read through anyway because hell the fuck anybody got to lose. He's been wildly off about identifying who he is talking to, or going off course for no reason and talking fucking outright stupidity to obvious astrosurfers.

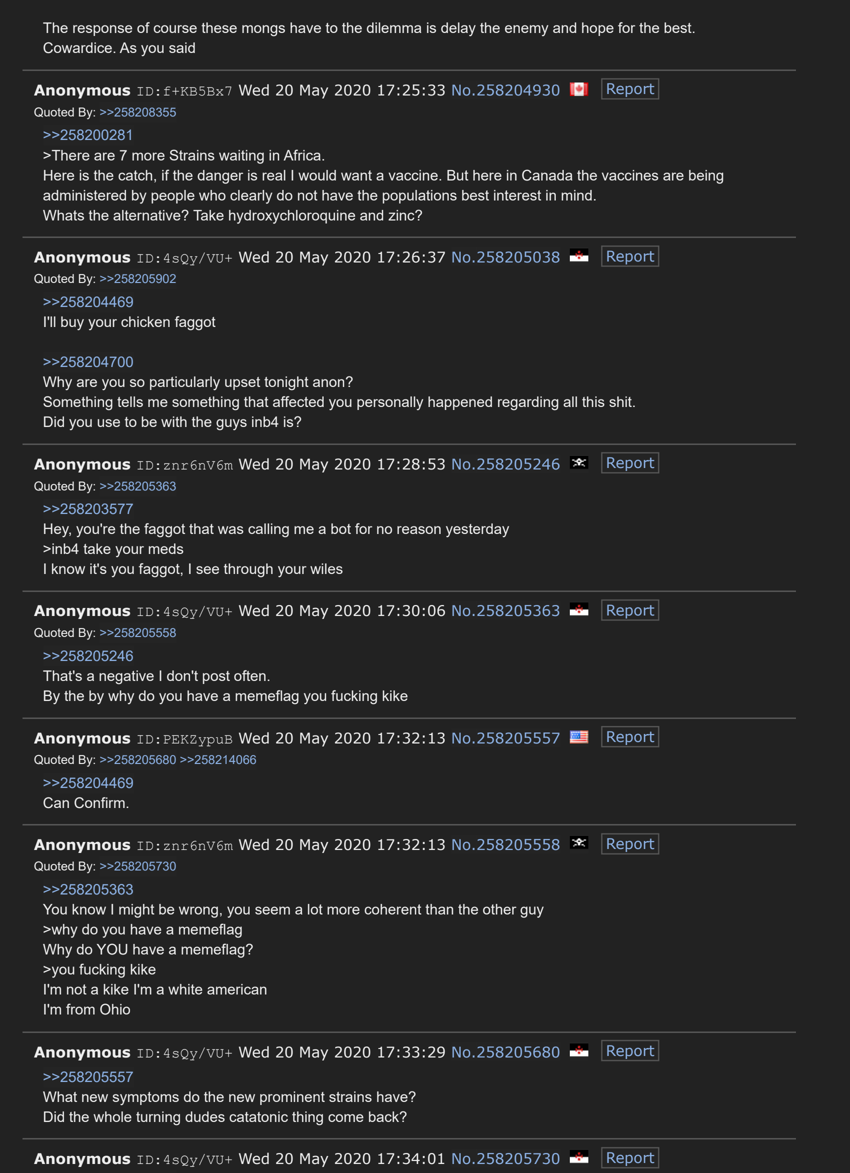
Old man GLR said it best in TTTW. Not everyone's in on the plot. Not everyone is privy nor willing to cooperate to do things.

I think what really holds back these idiots from doing anything is that the guys under their control are just grunts who have nothing to do with it. Say they got the green berets (lol) spun up to go kill or capture (to later kill) Alefantis or Clinton.
Someone's going to be like okay why did you do that or
Why are we telling our boys to kill this guy?

The SF goyim might be down to pop a plutocrat but someone along the chain of command is going to chirp because oh no this is illegal and unconstitutional.

And I don't mean to be playing devils advocate for inb4 they can most certainly take the time to formulate a group directly connected to some loyal silent individuals to accomplish this I'm sure.



The response of course these mongs have to the dilemma is delay the enemy and hope for the best.

Even if the process takes to 2100 I will see it through somehow. But vast majority right now won't make it.
No space force, no nothing is going to resolve this without a lot of blood spilled. The overarching sentiment and narrative of the world the enemy not only created but is more powerful then what is countering it won't allow it.
Then these fuckers sit back and laugh at the stupidity of the people as if they are outside of it all. Some fucking giving up and running away just like back in the 60s and 70s.
People know and see far more then they let on, and they know hat the state of the world is. Again, they are being thrown under the bus and their misery is being discarded like trash by those they trusted.
This is what people get for being good, for being who they are.
One thing is for sure. Many are quickly figuring out nothing but something very different is going to work to save anything.

Anti satellite weapons won't be taking down the pedo rings.

But there won't be people or what is /right/ within few years, all because of shit they are refusing to do anything meaningful about right now. Call it fucking optics whatever who gives a shit.
I and many see this not just from domestic view. There are things which if people fully comprehend and understand that will require we begin extermination, with supreme amount of violence to break and violate our enemies in a way they cease to exist.
We are past the point of no return for many people's lives and no alternative that is like this will cut it nor stop the overall trend. They one they don't have the balls to openly counter because they don't trust the people and have given up trying to fight it a while ago. They turned on a dime and abandoned the people when it proved inconvenient and people stayed on for a long time until they all got overrun with no help.
Not a single political events or 'cleaning out' will get rid of any of the problems facing the people today, not from what everyone sees. They refused to take this route the moment things kicked off in 2017 and they honestly don't give a shit who gets raped, who gets groomed, whose reality and what they hold sacred gets destroyed.
They would rather laugh at it all, pretend otherwise because acknowledging it would require they see things as they are is outside of their capabilities to deal with.
To put in simply, they are herding us to destruction and in contrast to vile shit the enemies do they are simply incompetent. This of course will draw majority of the people to do nothing and or side with the flow of the enemy.
Ask this and understand why allies around the world are being uncooperative or losing faith. It's that simple.

Either we get a proper cure and preventive measures for this by next summer at the latest, or we die by virus/chaos/war at the same time.
It's that simple and chinks for example are counting on complete media blackout, their conditioned ethnic impulse reinforced by state media (same playbook applied to iran), while we get no cover and live drowning in everything that want people dead and destroyed.
Even if few like me or others rise up to say and do something sooner or later you will figure out cowardice and conditioned helplessness resulting in deviant behavior has completely entrenched itself into the population, something that cannot be overruled quickly without some severe PUBLIC actions taken.
They missed the boat in 2018.
The chances grow very slim daily, and people are understandably not all together.
Enemy knew this but also overestimated what they knew and tried to kick off shit withe canada shootings etc.
People know more then what they let on.

The only reason this one has any audience here is because inb4 more or less confirmed it and nobody who even has an inkling of this shit even in the slimmest level is expecting something great or posted for the sake of ones here.
All they were hoping for is a bit of info and gleaning what they can, whatever other purposes may be.
But not a single shit thus far has worked out in favor of people who are dying daily. They are pretty much close to

giving up on a lot of shit and those at the helm have already surrendered a good deal to many, ahead of time even more then the people.
"stupid" are they.
This is what we are left with and this masonic/knowing/whatever fucker's friends can't even keep their top space force personnel with invaluable skill set alive.
Maybe if people started seeing information coming out about similar or more critical enemy assets in CCP/iranian/jewish/muzzy fucks being killed off (ones who hundreds of millions of groomed recruitment pool can't replace) then they might have hope regardless of complete media blackout on that.
But we get nothing except them doing everything wrong in regards to interacting with the people and ignoring everything they have to live with.
They can't afford to walk with the people and this is how the trust and hope is rewarded to them.
That's all there is to it.

If these threads were legit they'd get pulled and scrubbed straight away like anything whitepilled does.

Any strategy expert knows morale is the most important factor in a conflict. Nothing in the real world is being done for morale. nothing. Even arresting, holding and releasing Bill Gates would be something, would show that there was some concrete power fighting against this evil.

I'd love to believe Q and this fellow and BD but my better sense tells me it's a psyop.

I know enough about foreign policy and geopolitics to know that Russia and China want to be left alone to trade. That's their chess move. Nothing any of these insiders says tallies with this.
